

I Will Worship

Twila Paris

I will worship my God
I will worship my God

While I have life
While I have breath
While I have life
I will worship my God

I will worship my God
I will worship my God

For He is good
And He is just
And while I have life
I will worship my God

Then I will abide in His temple forever
To sing of His power and glory
To stand in the light with the faithful forgiven
Sing of His unending love

I will worship my God
I will worship my God

He is my rock
He is my strength
And while I have life
I will worship my God

Then I will abide in His temple forever
To sing of His power and glory
To stand in the light with the faithful forgiven
Sing of His unending love

I will worship my God
I will worship my God

While I have life
While I have breath
While I have life
I will worship my God

I will worship my God
In the land of the living

I will worship my God
I will worship my God
In the land of the living

I will worship my God
I will worship my God
In the land of the living

I will worship my God
I will worship my God
In the land of the living
