

You Are God

Twila Paris

You are the Star of the morning
Unending hope in the night
One righteous prayer from anywhere
Carries the promise of light

You are God on the highest mountain
You are God in the deepest sea
You are awesome in power and glory
Great is Your love for me
Great is Your love for me

You give the wings of an eagle
If we are willing to wait
One single word forever heard
Calls us to rise and not faint

You are God on the highest mountain
You are God in the deepest sea
You are awesome in power and glory
Great is Your love for me
Great is Your love for me

You are God on the highest mountain
You are God in the deepest sea
You are awesome in power and glory
Great is Your love for me

You are God on the highest mountain
You are God in the deepest sea
You are awesome in power and glory
Great is Your love for me

Great is Your love for me
Great is Your, great is Your
Great is Your love for me
