

Rolling Heads

Twilightning

Wicked itching down my spine
Now you just have crossed the line
This monkey dances at your will
Ready to play and thrill

' Keep on dancing like a fool '
Watch me when I lose my cool
We'll take it back to the Riot Race
I'd love to break your face

Do you think it's easier to breathe, so deep in there?
Do you think I'll keep on dancing for your dreams?

Take what you want, take what you need
Keep waiting for the rolling heads

Hide, I'll seek
Just hang the clown - and take 'em down

' Gotta find a quick relief '
The swine was talking to the thief
There's a way to satisfaction
To speed and action

Take what you want, take what you need
Keep waiting for the rolling heads

Take back that crown
Just hang the clown - and take 'em down
