

I feel regret and put on 'Penny Lane'  
I close my eyes and I feel safe again  
It pulls me back next to the stereo  
On the top floor of my grandparents' home

Imagine this  
Another world  
Another place where magic exists  
Yeah I want to go

'Cause when I grow up I want to be a kid  
I wouldn't have to work night and day  
My mind would stay so innocent  
I wouldn't even know what money is  
They say the youth is at peace  
I'm staying young to be saved

Abracadabra  
I couldn't get back there faster  
I want to go  
The rain hits hard so I push my hands in  
To the carpet as I let my head spin  
And take myself to where nobody knows  
I take myself to where nobody goes

Imagine this  
Another world  
Another place where magic exists  
Yeah I want to go

'Cause when I grow up I want to be a kid  
I wouldn't have to work night and day  
My mind would stay so innocent  
And I wouldn't even know what money is  
They say the youth is at peace  
Don't have to work like a slave  
I'm staying young to be saved

So I can be saved

'Cause when I grow up I want to be a kid  
I wouldn't have to work night and day  
My mind would stay so innocent  
I wouldn't even know what money is  
They say the youth is at peace  
Don't have to work like a slave  
I'm staying young to be saved

So I can be saved
