Twin Atlantic

Speak from the start
or wash your hands
of foreign lands.
It's so ignorant
to believe

"I am the best, and
I'm all you need"

Well...

They say it comes with age,
they say it comes with age,
we can prove them wrong.

'Cos you know it's not right
you can feel it in the words they say.
The think they're the right ones (right ones)
You can't edit me (no, no)

Please everyone
just come along
and get involved
It's dynamite
when you bridge
just how you think
into how you live.

Well...

They say it comes with age,
they say it comes with age,
we can prove them wrong.

'Cos you know it's not right
you can feel it in the words they say.
The think they're the right ones (right ones)
You can't edit me (no, no)
