

# It's Not Dead

Twin Atlantic

We've hit a low, but it's time to rise again,  
And I've had enough of accepting, this is the end,  
For all the years that the voice of the people was heard,  
Oh yeah, oh yeah,  
Now's our time, now's our time,  
Just keep your head, and we'll keep the edge, keep the edge,

What were you trying to prove, crushing the dreams of the millennium's youth,  
A generation with nothing to say,  
I'm not surprised with the fear you've made,  
I'm not surprise with the fear you've made,  
And it's not dead, it's not dead,  
You just can't hear it,  
And your words are meaningless,  
Don't you try and take my life away,  
Rock and roll music is a part of me, rock and roll music is a part of me,

Put down your guns, take out the bullets of other men, other men,  
Their words are poison, they'll twist a tail into sudden death, sudden death,  
For all the years that the music we love was heard,  
Oh yeah, oh yeah,  
One man no mind, destroys it all with opinion and pen, opinion and pen,

What were you trying to prove, crushing the dreams of the millennium's youth,  
A generation with nothing to say,  
I'm not surprised with the fear you've made,  
I'm not surprise with the fear you've made,

Cause it's not dead, it's not dead,  
You just can't hear it,  
And your words are meaningless,  
Don't you try and take my life away,  
Rock and roll music is a part of me, rock and roll music is a part of me,

It's not dead

it's not dead,

It's not dead,

it's not dead,

You just can't hear it,  
And your words are meaningless,  
Don't you try and take my life away,  
Rock and roll music is a part of me, rock and roll music is a part of

me
