

# I Don't Care

Twin Shadow

Let me you're innocent  
And tell me all the things you've done  
And talk about the parties  
And the boys that you got undone

I don't care  
I don't care  
Long as you can dance me 'round the room  
While you lie to me

Why then all the words  
How you never disobey your ma?  
Then brag about your first time in a bathroom stall

I don't care  
I don't care  
Long as you can dance me 'round the room  
While you lie to me

You sitting home on a friday night  
I was ready to dance  
You were looking to fight  
So you whispered something softly in the telephone  
You were looking to get it  
Cuz your daddy's not home

So I came to you in the night  
And I told you the truth and you cried

Before the night is through I will say three words  
I'll probably mean the first two  
And regret the third

I don't care  
I don't care  
Long as I can dance you 'round the room  
While I lie to you  
Long as we can dance around the room  
While we lie  
Long as you can dance me 'round the room  
While you lie to me  
Long as we can dance around the room  
While we lie
