

Watch Me Go

Twin Shadow

I put her in my head in the tiniest framework
In the space left for me where you neck meets your shoulder
We're used
Who has the mask? Don't make me laugh
It's always been you

Like the ocean meets the rain, we've been one the same
When our bodies touch again
Take a walk and be tamed
When they come back again
I take a gun and do the same

Just watch me go
Insane
Just watch me go
Insane

Fall at your feet, that don't make me a soldier
And only in sheets will I follow your order
Over-used
Who ties me up, never enough
It's always been you

Just watch me go
Insane
Just watch me go
Insane

Like the ocean meets the rain, we've been one the same
When our bodies touch again
Take a walk and be tamed
When they come back again
I take a gun and do the same

Just watch me
Just watch me
Just watch me
Just watch me
