

Get me

Twista

On a rainy dark early morn
A lethal legacy was born
Ask any rapper around
Bout the fuckin' mics I left torn

But the game won't give me all my P's
And I wont leave the Chi to get G's
Got love for my MC's at home
But some of them still hate on me

Look how many years I done repped
Hustle thru the streets in the go
Inspired by the first rappers ever
Signed a contract a decade ago

Put Chi name on records in the east
Put Chi name on records in the west
Put Chi name on records in the south
Bitch how you gone open yo mouth

To the muthafuckin' industry
Why you hate on me and my city
Will it be an imbalance of power
If y'all let chi niggas get G's

Or I it us holdin' us back
Think hard when you rollin' yo sack
Whatever the case my Chi nigga
If it's in my means I got yo back

What the fucks really going on
Does a man bite cause he knows he on
Don't he know I've already established
Myself as twist a coleone

Well I'm holdin my city down
Ain't going nowhere here I stand
You know where I'm at if you hate me
If you want me, here I am

Here I am, here I am
Here I am, here I am
Here I am, here I am
Here I am, here I am
Come and get me
Come and get me

Tell me what did I do to deserve
All of this madness around me
Found me in the studio burying myself in work smoking herb
Tried to kick me to the curb

To the back, to the ditch, to the dump
To the shack, but I sprint, to the front
In a l lac, with a fifth and a blunt
And I'm back, in the bitch wit a pump

And I'm ready to bust at you hoes
Ready to dump lames in ditches
Steady makin' fakers bleed
LB family handle business

Come and enter twista's realm
Journey wit me thru the pain
The hurt just might make you envision
Drama that can turn you insane

How much of my chaos bring tears
How many threaten my career
How many threatin' to murder me
But bitch you know where I live
Who the fuck you think I is

Y' all ain't comin' at no lil shanty
Why you think you can hurt like these years
Joe why my lil P's got you salty
Think you finn'a bring out my fears
Tell me why my success, make you cry

And why my downfalls make you laugh
I bet my hydro got you high
Never let hate back me down
Stand firm like a man, if you want me
Wanna kill me, here I am

Here I am, here I am
Here I am, here I am
Here I am, here I am
Here I am, here I am
Come and get me
Come and get me

We got Geo like Neo and of course we as saucy as Morpheus
Or we as sick as sir Marcus Aralias alias Atheist
Against niggas who flow be the achiest
Against aliens and why they hate me

Is maybe is 'cause I'm controlling this radius
Of this world and this whole Universe
Don't believe let me spit you a verse
And just when you think you the worst

I come with words that make you disperse
My allies know I'm too cold, my enemies know I spit fast
My Lords know I'll bust that tang
My gangsta's know I'll whoop some ass

Mobster family steady ride, LB family steady click
When us and other crews collide, choose ya weapon take a pick
Load up, click clack, it's on finn'a bust, get back
Run home come at me bogus get whacked wit a strap
To the back, of the dome, industry niggas get gone

Heard y'all be speakin' big words
I'll show you some shit that a blow you down
Slow you down, like you sip syrup
For chi sacrificial lamb, right here I stand firm
If you want me, here I am

Here I am, here I am

Here I am, here I am
Here I am, here I am
Here I am
Come and get me
Come and get me
