

I Ain't Wired Right

Twista

Yeah, yeah, I'm loosing it,
Warrup tracks, my veins open up now... let's get it

They ain't trippin', they just plain can't get it
Not the way I spit it, cause I'm different
Magnificent when I kick it, haaa
Flow too vicious, eat rappers like they delicious
Killing everything which is ficticious for the riches
Now, can I get a witness, haa
Look at what a nigga did, fucking with the lyrical caution is hard
Causing the... going to the mars like I'm so sick I'll even... the porsche o
n the car
Coming to the... looking at the grill
Love or the... for the grave on the pill
... can't fuck with him
On the block like jordan take a shot like duke
So bring the dutches in
About bitch niggas I could get 2 fucks like the Klu Klux was in
You can murda what I write, I was just passing
Who said I touched the pen
When I do I bet you see it on billboard
What the fuck you think I'm going on kill for?
We could see which one of us a nigga feel more
Relax sometimes because I get real bored
Disappear for a moment, when I come back
I'ma kill them, I'ma rap shot they
But never get it twisted, I'ma live it... when I clap I spray

I ain't wired right, I ain't wired right
I'm bout to set this bitch on fire, I ain't wired right
I ain't wired right, nah I ain't wired right
Cause a blackout in this bitch, x 2

Better be scared of my legacy, homie
You won't diminish mine,
Feeling cashmere, with a verse make a nigga sick
Cross the finish line
You would have thought a nigga in the game 20 years still be in his prime
I eat up that new motherfucker you fantasize
Freshly into shot town, what you think I put a little philly in it
If I said it then I really mean it
Tear a nigga up like an achilles tendon
Better ACL, AC-hell, when I hit the bank
... hit it till I feel like a nigga fin to faint
You don't like what I... screw you...
Nigga for you to be... with the security code of a g
... I gotta be strong in whole city full of thieves
That's why my niggas stay holding metal like wolverine
The cause a riot type, but me I'm the quiet type
Them be the ones that you really gotta watch out for
Cause they ain't wired right

I ain't wired right, I ain't wired right
I'm bout to set this bitch on fire, I ain't wired right
I ain't wired right, nah I ain't wired right
Cause a blackout in this bitch, x 2
