

## Whitney Houston Tribute

Twista

Rest in peace to the late great Whitney Houston  
We just lost one of heaven's angels, it's a thang  
Twista ya,  
Still so young, I can't see... here we go

What? Somebody told me Whitney Houston died  
Can't believe to tell you how quickly tears went through my eyes  
She was getting better now it's really just flew aside  
I still ain't got over Don Cornelius' suicide  
So where do I start it? Dearly departed  
One of heaven's angels for sure who was really an artist  
Loving the way that my mama was saying she can sing in a way that's magical  
Ain't nobody like you, nobody before you and nobody after you  
Can never come near you  
Not hearing the ... but you with us as spirit  
So sad to hear it, I'm choking up while I come up with these lyrics  
And though she blessed the earth and it's time to let heaven prosper  
I still wish somebody was there to protect her  
Who? Kevin Costner, Who? Clive Davis, Who? Bobby Brown  
Her mama and her daughter, Whitney is ... now  
Such a short time, don't want it to be this way  
But if she was here, she would probably say

If I should stay,  
I would only be, in your way  
So I'll go but I know  
I'll think of you  
Every step of the way x2
