Mannequin

Twisted Method

Played I've been f**kin played
I've been f**kin played I've been f**kin played
Changed yeah you haven't changed yeah
you're still the same you haven't f**king changed
Quit comin around like you act hard.
You sick bitch, Oh my GOD!
I know he's comin for you
I feel this it's way in my mind
I find I can't hide
You f**kin bitch! Just get away from me
And you know everything'll be OK
Oh, I feel bitter inside knowing that I just cannot get away
From this pain that you're causing me
I could never love someone who's so fake
We do it just like this
You say you know all about me
You know the inside of my world
Then why the f**k do I feel so cold
Chorus
We do it just like this
You say you know all about me
You know the inside of my world
Then why the f**k do I feel so cold
I see right through your plastic face.
Which I love to degrade
I know he's cummin on you
I can't wait until you f**kin bleed again and again
yeah you f**kin bitch.
Just get away from me.
And you know everything'll be OK.
Oh, I feel bitter inside knowing that I just cannot get away.
From this pain that you're causing me.
I hope he beats your guts until you bleed!
Chorus
Get it get it
Get it get it
