

# Feel The Power

Twisted Sister

So you think we'll have to save our name, oh  
And we haven't got the stuff it takes  
Let's lay the cards out on the table  
There ain't no way we'll lose our stakes

We ride the tiger, we ride the storm  
We'll fight your fire, like never before, you'll hear our roar

You got to feel the power  
You got to feel the power  
You got to feel the power, feel the power  
Feel the power, feel the power

So we hear you think you're so amending  
We'll show you all that we will do  
You think your powers neverending  
We'll show you what the truth can do

We have the reason, we have the might  
And for your treason we're gonna fight you day and night

You got to feel the power  
You got to feel the power  
You got to feel the power, feel the power  
Feel the power, feel the power

Alright

You got to feel the power  
You got to feel the power  
You got to feel the power, feel the power  
Feel the power, feel the power

So you better think before you trail on  
There's single truth we ain't your bet  
And if it's got to set your mental  
Well, man you ain't seen nothing yet

We are the tiger, we are the storm  
We are the fire, like never before, you'll hear our roar

You got to feel the power  
You got to feel the power  
You got to feel the power, feel the power  
Feel the power, feel the power
