

Follow Me

Twisted Sister

Oh no, here we go, doin' it all over again
Paintin' our lips and shakin' our heads, we gotta find a new bunch of
friends
You know it's good to be here, you're burnin', you're tryin' to get h
ere so
So get up your seat, you're lookin' sweet and shakin' some old rock '
n' roll

Lookin' at you, I can see right through your eyes
You got the power to love, you fall in the sky

Follow me when your heart is breakin'
And your body's shakin'
And your whole world's achin'

Oh my, we will dye, every part that you really know
Just what goes on when I'm closin' our guard and we're thinkin' of so
methin' to do
Well, out in a pink, well, that I can drink so much and I'd be aware
So turn out the light and kiss me goodnight, I really didn't need you
there

Lookin' at you, I can see right through your eyes
You have the power to love, you fall in the skies

Follow me when your heart is breakin'
And your body's shakin'
And your whole world's achin'

Wooh

Follow me when your heart is breakin'
And your body's shakin'
And your whole world's achin'

Oh no, here we go, doin' it all over again
Paintin' our lips and shakin' our heads, we gotta find a new bunch of
friends
Oh my, we will dye, every part that you really know
Just what goes on when our makeup is gone and we're thinkin' of somet
hin' to do

I'm lookin' at you, I can see right through your eyes
You got the power to love, you fall in the skies

Follow me when your heart is breakin'
And your body's shakin'
And your whole world's achin'

Follow me when your heart is breakin'
And your body's shakin'
And your whole world's achin'

When your heart is breakin', your body's shakin', your whole world's
ache
Follow me, wooh
