

# I'll Take You Alive

Twisted Sister

Pull the trigger, set the fire  
Light the fuses, trip the wire  
Head for safety, run for cover  
Hit the dirt, I'm takin' over

Curse my name, say I'm a liar  
Cut me loose and douse my fire  
Mean mistreat me, spurn my lovin'  
Pull my heartstrings, keep on shovin'  
I want your love  
I need your love  
Don't try to hide, run away or take a ride  
Some way, one day

I'll take you alive  
I'll take you alive  
I'll take you alive

Ow  
I'm your lover, your obsession  
Modern romance, true confession  
Guardian angel, phantom stranger  
Infantry and your lone ranger  
I want your love  
I need your love  
There's no way out, so, don't scream, kick or shout  
One day, some way

I'll take you alive  
I'll take you alive  
I'll take you alive

Ow ow ow ow ow ow

Pull the trigger, set the fire  
Light the fuses, trip the wire  
Head for safety, run for cover  
Hit the dirt, I'm takin' over  
I want your love  
I need your love  
Don't try to hide, run away or take a ride  
Some way, one day

I'll take you alive  
I'll take you alive  
I'll take you alive

I'll take you alive
