

## The Beast

### Twisted Sister

You can hear the thunder long before the storm  
But you can't hear the lion when he stalks his prey  
He's moving like a shadow, creeping up on you  
And like a siren's call he's gonna have his way  
You'd better run, forget your pride  
Don't make a stand, just step aside  
If you don't have what it takes, don't try to play, you'll lose  
your stakes  
Remember this at least

It's the nature of the beast  
It's the nature of the beast

You won't hear a footstep comin' up on you  
Movin' like a snake he's in complete control  
This killer knows his business, he is the predator  
You are his only target, you're his only goal  
What will you say, what will you do?  
Your wildest nightmare's comin' true  
There is nothing you can say, no way to change, he won't delay  
This cain will have his feast

It's the nature of the beast  
It's the nature of the beast

If you play you're bound to lose, don't roll the dice, don't tu  
rn the screw  
Just listen to the priest

It's the nature of the beast  
It's the nature of the beast

It's the nature of the beast  
It's the nature of the beast
