

Blood...all I Need

Twiztid

Blood, guts, infected cuts cover most or all of my soul
blinking Morse code when blood splashes in the eye
Stab him couple hundred times
Shit, I'm being generous, I saved all the rage for you, you deserve the bene
fits
Stab him couple more times
Your body's like a blood sponge
break the rib cage and cartilage, and puncture both your lungs
Take a deep breath for me
your throat filling up with blood, choking while you're tryin to breathe, pu
t that on my crimson love
Shiny red latex gloves
they say if I did it then your bleein' like a pussy on its period
Stab him couple million times
this time in the face I will, watch the blood get stuck and sure
really accentuate the kill
they said I should never leave your head or corpse alive
so I'll keep stabbing 'til your body's fit and dead
Of course I saved all this pain for you, every ounce of agony
now I'm pincushin a voodoo doll, laughing while you're bleedin out

Blood

All I'm looking for

Blood

All I want is your

Blood

When I feel like I'm finally at my breaking point, (blood)

When I'm thinking like "what the fuck am I stopping for?"

I should not be stopping for anything but your spinal cord"

I'll just put another cut on you 'til the blood's all gone and the knife run
s through,

when I pull it back out and I'll put it back in and that'll be the way every
body's gonna end

Just wanna get a knife and go STAB, STAB, STAB, STAB

Don't know when it might be, though

Cuz it might be so in a frightening zone

All I wanna put in you is holes, anytime I'm losin control

just gotta find a better way to put a blade inside you, that's the shit I m
urn

Gotta keep going 'til I feel bone

and I ain't talkin thuggish and ruggish

but I wanna get crazy, number one enemy of the public - Juggalo

And I keep it scrubby, put a big cut in your tummy

But I'm gonna eat, need something inside me when I decapitate your honey

Gotta get my hands on something sharp and shiny

Gotta take my chance and try to stab in a trailer park for Honey

But I wait for darkness

When I race amonst all dark to find 'em out

Well, I'm about to do my part and erase swine

And the rest of 'em cry like a chalkboard

And I got more knives than any store you can think of

Got stock for it, a lock goes off

Not gonna make me stop and think about the noise that I just heard, and I'm

Impale, exhale, entrails everywhere
Stab me too, if you can 'fore you die
Make it fair
What am I, a masochist? So what if I love pain
Stab him couple hundred times
Sharpen knives and play the game
Blood splattered everywhere, must have cut a vital one
Blood loss, turning pale, tell me - are we having fun?
I ain't close to being done, I've still got some blood in me
Standin there dripping 'til I run my life's expectancy

And expecting me to be anything less than a luna-T-I-C
is like holding your breath and then hoping you still breathe, it's not gonna happen
I give my life to the stabbin
And like a flame to a dragon I like to burn everything that I've captured
But I've stabbed so many holes in your body that the burning, it doesn't matter
I'm a human disaster and all I wanna do is take a knife and go -
right through your back, sir

Blood
All I'm looking for

All I want is your
