

# Fever

Two Door Cinema Club

There's a fire in my head  
And it's keeping me from getting out of bed  
Take the TV, take the rest  
All my riches for a vision and a quest

How we turn  
How we yearn  
Plastic fern  
Watch it burn  
Hold my coke  
Need a smoke  
No, no, no

Don't feel like getting home  
We got that fever catching on  
Feel religion and I get down on  
Feeling good enough  
Enough for me, enough for me  
Vibration gets your bones  
You take a picture with a telephone  
She's a bitch and everything I want  
'Cause she sets me free  
I'll never be, I'll never be

I found out  
I confuse desire and control  
And maybe nothing's gonna save me  
I'm in too deep  
I cast the mould

How we turn  
How we yearn  
Plastic fern  
Watch it burn  
Hold my coke  
Need a smoke  
No, no, no

Don't feel like getting home  
We got that fever catching on  
Feel religion and I get down on  
Feeling good enough  
Enough for me, enough for me  
Vibration gets your bones  
You take a picture with a telephone  
She's a bitch and everything I want  
'Cause she sets me free  
I'll never be, I'll never be

I wanted some  
I wanted something  
But there ain't no trying now  
I've got the pain  
Somebody stop me

Don't feel like getting home  
We got that fever catching on

Feel religion and I get down on  
Feeling good enough  
Enough for me, enough for me

Don't feel like getting home  
We got that fever catching on  
Feel religion and I get down on  
Feeling good enough  
Enough for me, enough for me  
Vibration gets your bones  
You take a picture with a telephone  
She's a bitch and everything I want  
'Cause she sets me free  
I'll never be, I'll never be
