

This Is the Life

Two Door Cinema Club

Feel something right
And feel something good
Because if one thing works
You might know its true

Because if this is the life
This is the life
This is the life
This is the life
This is the life
Then who'd argue?

One year, five days
And we're starting new
Try to make a change
It's one more thing to do

Because if this is the life
This is the life
This is the life
This is the life
This is the life
Then who'd argue?
