## Wake Up

## Two Door Cinema Club

Goodnight, daylight
I won't remember you for long
Sleep tight, fist fight
Until December's come and gone

It's only late you have time
With any reason that you find

Somewhere in slumber
Is someone who did't see it coming

If all this leaves you behind And everything starts to rewind

It doesn't mean anything You won't remember what you see It could take you a lifetime A lifetime

You got lost Lost through the night It's no loss You'll be alright

Tell me you'll feel better When you're sleeping though the day And I'll tell you how you missed it When you wake

It doesn't mean anything what you done or where you've been It was a chance of a lifetime

You got lost
Lost through the night
It's no loss
You'll be alright

Tell me you'll feel better When you are sleeping though the day And I'll tell you how you missed it When you wake up

(When you wake up) (When you wake up) (When you wake up)
