Hope

Two Witches

In this world our hands are bind And your eyes so blind To see wish in my looks On an other shore We walk in hand in hand And I feel your lips The warmth of your touch Chorus In this world Our hands are bind And your eyes so blind To see wish in my looks Hope-hope... Pain in my eyes When I look at you Pain in my heart When I think of you I want to take you on my arms Wanna feel your lips The warmth of your touch Chorus In this world Our hands are bind And your eyes so blind To see wish in my looks Hope-hope... On an other shore We walk in hand in hand And I feel your lips The warmth of your touch In my dreams there ain't no limits No chains, no ropes To prevent our love Chorus In this world Our hands are bind And your eyes so blind To see wish in my looks
