Maybe Next Year

Two Witches

Autumn's breath
On loves grave
Lips are cold
Like winter skies

Maybe next year
October knows
When I meet again
The girl named Desire
Desire
Dance with me
Kiss me again

It was the day When flowers died And I met the girl With misty eyes

Maybe next year
October knows
When I meet again
The girl named Desire
Dance with me
Kiss me again
Dancing in the shadows
Dancing in the dark
