

# She Gonna Miss Me When He's Gone

Ty England

We had a fight and I walked out  
Don't recall just what we fought about  
Before her tears could hit the ground  
A stranger came to town

Now he's got her thinkin' that it's all my fault  
She's convinced I never cared at all  
She won't even take my calls  
Now my heart's against the wall

There's only one reason I keep hinging on  
Yeah she's gonna miss me when he's gone

Well people says he looks a lot like me  
They even say this whole thing might be  
Just an act she can't see through  
Now he won't love her like I do

I never knew the night were so long  
Yeah she's gonna miss me when he's gone

Someday he's bound  
To catch the wind  
And he'll blow away  
Just like he blew in

And I've got to find her  
And tell her she's wrong  
Yeah she's gonna miss me when he's gone
