

# Thinkin' With My Heart Again

Ty Herndon

I only needed coffee  
Aisle four is where she caught me off guard  
Seemed like a lifetime between her goodbye  
And by the way, how have you been?

She talked about the weather  
I thought of nights I held her so close  
Oh, there I go, thinking with my heart again

Her smile brought back the best times  
Sweet memories of nights together  
Stirring up those old feelings  
That got me thinking 'bout forever with her

She said, "I must be going  
There's someone waiting for me outside"  
And I died, oh, there she goes and here I go  
Thinking with my heart again

Her smile brought back the best times  
Sweet memories of nights together  
Stirring up those old feelings  
That got me thinking 'bout forever with her

I only needed coffee  
Aisle four is where she caught me  
Thinking with my heart again
