

# You Just Get One

Ty Herndon

You get a lot of pretty days  
Some where the sun don't shine  
Make a lot of friends along the way  
You leave a few behind

But you just get one, you just get one  
You just get one true love  
Oh, you just get one, you just get one  
You just get one true love

You get a lot of songs that make you smile  
Some that make you cry  
You could travel for a million miles  
And never find the reason why

That you just get one, you just get one  
You just get one true love  
Oh, you just get one, you just get one  
You just get one true love

You get a lot of pretty days  
Some where the sun don't shine  
Make a lot of friends along the way  
But just one that you cannot leave a few behind

Yeah, you just get one, you just get one  
You just get one true love  
Oh, you just get one, you just get one  
You just get one true love

Yeah, you just get one, you just get one  
You just get one true love  
Oh, you just get one, you just get one  
You just get one true love
