

Glow In The Dark

tyDi

The stars are flickering
The sky is closing in
But I won't let go
No, I won't let go

I think I'm blacking out
My ears are ringing loud
But I won't let go
No, I won't let go

I wanna scream
Stuck in this dream
It's dimming down 'til I see nothing
Feel the cold air on my skin
As we implode

But I will glow in the dark
I don't need you to save me
We will glow in the dark
We can make it, baby

I can glow in the dark
No matter what's around me
We will glow in the dark
Glow in the dark

The night is falling hard
The shadows rip apart
But I won't let go
No, I won't let go

I see my world collide
And all the light has died
But I won't let go
No, I won't let go

I wanna scream
Stuck in this dream
It's dimming down 'til I see nothing
Feel the cold air on my skin
As we implode

But I will glow in the dark
I don't need you to save me
We will glow in the dark
We can make it, baby

I can glow in the dark
No matter what's around me
We will glow in the dark
Glow in the dark

Just promise you'll hold on
Just promise you'll hold on

But I will glow in the dark
I don't need you to save me

We will glow in the dark
We can make it, baby

I can glow in the dark
No matter what's around me
We will glow in the dark
Glow in the dark
