

# Live This Lie

tyDi

I, I, I need you  
I, I hate when I'm alone

This phase of want  
Plastic and paint  
Come on and make me out  
If you want to  
Without You here I'm not the same  
Let go let go let go

I will control you  
Now that I own you  
Pushing insanity feverishly  
I will control you  
Now that I own you  
I wanna I wanna I wanna, wanna live this lie

I will control you  
Now that I own you  
Pushing insanity feverishly  
I will control you  
Now that I own you  
I wanna I wanna I wanna, wanna live this lie

I'm dirty when I turn off the lights  
So maybe I'm your devil disguised  
You bite my lip and then say goodbye  
I miss you when you're gone

This phase of want  
Plastic and paint  
Come on and make me out  
If you want to  
Without You here I'm not the same  
Let go let go let go

I will control you  
Now that I own you  
Pushing insanity feverishly  
I will control you  
Now that I own you  
I wanna I wanna I wanna, wanna live this lie

I will control you  
Now that I own you  
Pushing insanity feverishly  
I will control you  
Now that I own you  
I wanna I wanna I wanna, wanna live this lie
