

Why Do I Care

tyDi

You sit there so empty
I wanna shake you tonight
Just keep this heart out of sight.

But you're hurt, and so lonely
Let me make this right
Just feel love leave you tonight

Why do I care?
You never loved me anyway
Why do I care?
You'll never love me anyway

Evident it seems that
She'll never love you quite
As much as she once had

I'm still wondering
So what I
Can do to make this right
If only just for the night

Why do I care?
Why do I care?

So you're big in your town
Girls all want you around
But I can't wait

Why do I care?
You never loved me anyway
Why do I care?
You'll never love me anyway
