

Pillow Talkin'

Tyga

Why do we fight? Why do we argue all through night
When we should be pillow talkin' baby?
Make the wrongs right, all things aside, swallow our pride
And just love each other all the time
You got me and I got you, what else could really matter?
But lovin' that's what it's all about till death does us part
Dear princess remember what I called you
Markin' them calendar days away
Till that moment I saw you and I fell in love
From that very moment I saw you
Glad I played on the phone and dialed them numbers to call you
And now I'm thinkin' about how could that go wrong
You was so special to me like the music in this song
From my heart I said till death do us apart
But then dated for only a month or so how is this possible?
She, she got me stutterin', my words beginning to slur
As I say I love her but I'm lovin' it
It feels so right when I'm huggin' her
She sayin' the same, she feelin' complete like two way streets
Ringin' my phone, she never hear a beat that means I'm answering
Fulfillin' her every need and desire, your dream, this is life with me
Continuous shoppin' sprees when I'm on the road
Even gave you all the security code so baby tell me, tell me
Why do we fight? Why do we argue all through night
When we should be pillow talkin' baby?
Make the wrongs right, all things aside, swallow our pride
And just love each other all the time
You got me and I got you, what else could really matter
But lovin' that's what it's all about till death does us part
I thought it was more to what we had
Her secret stash filled with bundles of emotions
Now I'm startin' to notice all that shit was bogus
All the dozens of roses, thinkin' you was my golden token
Now I'm feelin' frozen, lookin' like my life is hopeless
No human should ever experience what I drove in
Now my car is broken
My engine hood, I should have never left it opened
Lookin' like I'm on E, no fuel, I can't even eat
Don't even want to breath if you ain't close to me
No friends, my only enemy is cupid, how could you be so stupid?
Please, tell me why love hurts?
Can you even hear me? Can you even imagine?
If your arrow wasn't workin' for weeks
I don't think so, I'm just tryin' to think slow
It just ain't me, so please, play the drum rolls
And roll the red carpets out as I wait for you to return
With an explanation, so baby start explaining
Why do we fight? Why do we argue all through night
When we should be pillow talkin' baby?
Make the wrongs right, all things aside, swallow our pride
And just love each other all the time
You got me and I got you, what else could really matter?
But lovin' that's what it's all about till death does us part
