

Dark Rider

Tygers of Pan Tang

On a quest - on a ride
Through the darkness of the night
Out for something hard to find
A secret jewel hidden in someone's mind

In the woods you will find - a shining secret lights up
the sky

Dark Rider - burning wheels of fire
Kickstart your heart, feel your engine reviving higher
Dark Rider - like a demon screaming by
You gotta ride to live, ya gotta live to ride

As the full moon shines
Hear the winds whispers in the wild
Holy silence, Devil's delight
He's on the streets somewhere outside

If you dare to high - His laugh will blow your mind

On a quest - on a ride
Through the darkness of the night
Holy silence, Devil's delight
He's on the streets somewhere outside

In the woods you will find - a shining secret lights up
the sky
