

I walk around this place each day  
See those kids, what do they say  
The air is empty - I'm left alone  
They speak to me in this accusing tone

Insanity

Clouds part and I can see the sky  
The wind rushes through my mind  
Will they take me? Will I be known?  
Forever you'll be banished I hear one moan

Insanity

I know you're there in a space in time  
I see it's life evolve like mine  
Although we're gone, when I dream I find  
In the end we'll all be caught by time
