

Keeping Me Alive

Tygers of Pan Tang

Feels like a storm up ahead
I can taste the air
Dark clouds in the sky up-ahead
A signs say: "Beware"!
I get closer - Just a little closer

Roads climb to the sky to the sky up ahead
I could lose my way
So many words left unsaid
I fee so far away
I get closer, just a little closer

To your heart, soul your emotion
Keeping me alive
Head strong deev devotion
Keeping me alive
If I get lose on this lonely road
I known deep down inside - Your love
Keeping me alive

Storm breaks I see the light up-ahead
It will guide my way
I turn to face the demons in my head
I got to follow my faith
I get closer - Just a little closer
