

## Live For The Day

Tygers of Pan Tang

All fired up my sights on you  
When I take my move nothin' you can do  
Red hot girl she's pure desire  
Right here right now she sparks my fire  
Four years ago she gave me the eye  
You gave the signs I was too shy  
But now I'm back make no mistake  
I want your love it's make or break

Sands of time they fade away  
The lessons I've learned

One chance alone to make my move  
It's do or die I had to prove  
Straight away you said you would  
I never dreamed love could be so good  
If only I had been so brave  
And ask before what I did crave  
All those years of love untold  
But now I'm back on top of the world

Live for the day - Live for the day - Live for the day

Don't waste your life in blues and grey  
You take it now take it away  
If you knew what I do now  
I live the dream and I show them how

Live for the day - Live for the day - Live for the day
