

Man On Fire

Tygers of Pan Tang

Trapped in a world I just can't escape
I know I gotta change my ways
The devil inside is beating me down
This could be the end of my days

The trouble with me is the drink and the girls
I love em with my heart and soul
Party all day and party all night
It's getting outta control

Well strike me down
For all I'm worth
Cause I still got plans
For raising hell on earth - I'm a man n fire
Raising hell on earth - I'm a man on fire

The angel of mercy's been trying to call
But I just don't answer the phone
I know she's gonna try to guide her wayward son
But I've got some plans of my own

There's a road to destruction I'm taking tonight
It's gonna get a little wild
I'm dancing with the devil from dusk till dawn
The original destiny's child

Trapped in a world I just can't escape
I know I gotta change my ways
The devil inside is beating me down
But I've got some plans of my own

There's a road to destruction I'm taking tonight
It's gonna get a little wild
I'm dancing with the devil from dusk till dawn
The original destiny's child
