

# One Of A Kind

**Tygers of Pan Tang**

Tried to be like others, tried to change my ways  
Oh I soon discovered, some things never stray  
Its enough... its enough... to drive you insane

Look into the mirror, don't like what I see  
Crazy kinda reflection, but is it really me  
Its enough... its enough... to drive.

Outta ya mind outta ya soul pushing you back down into a deep black hole  
Your heart plays with fire burns desire but it treats you just like a toy  
It'll destroy every bone and fibre in your soul  
But in time you will see you will find  
You're one of a kind

Hide amongst the shadows, until I catch her eyes  
Her tears fall like water, let me turn them into wine  
Its enough... its enough... to drive you

Its enough... its enough... to drive you
