

These Eyes

Tygers of Pan Tang

These eyes that see you see the other side
These eyes that see you see the child inside
These arms around you holding you so tight
These arms surround you making it alright

Sure I got a lot to learn
I know how I feel
Yeah we gotta lot to learn
This love's for real

The joy around you see it in your eyes
Some kind of infection makes you realize
This world around you spinning round & round
Is a world of confusion feet don't touch the ground

These eyes that see you see the other side
These eyes that see you see the child inside
