

## Burning Down Inside

Tyketto

Play the game of indecision, come what may, she knows it isn't  
just

His voice on the line, one final time she hears thunder  
Precious lies when she played her part  
Still she tries, because hope dies hard  
With broken wings, she can feel the sting like a backhand over  
the telephone

In her eyes, shimmers twilight, drivin' hard, it gives up the f  
ight

And she fights it back, knowing that the dam could break wide o  
pen

Burning down inside, nobody wants to be lonely  
Burning down inside, the harder they come, the harder she falls

To her face, I show my arm, I walk away, before I do more harm  
And with the damage done, she won't know where to run or who to  
run to

Turnin' like a spinning wheel, dancin' on her head  
Tries so hard to walk away, she falls in love instead

My head says, we should always go our own ways, never get too c  
lose

When she can hear my heart, if she comes apart, I'll be waiting

Burning down inside - the harder she falls - burning down insid  
e

Burning down inside, the harder they come, the harder she falls

Burning down inside, burning down inside

Burning down inside, the harder they come, the harder she falls
