

# Someone Like You

Tyler Hilton

Nothing good was on T.V.  
Called you up got your machine  
I thought I saw you in my dream last night

Think I cried myself to sleep  
I thought about you had to weep  
Seems the world was very mean that's right  
And I wanna see, what happened to you and me

Thinkin bout her eyes and hair  
I thought I saw you everywhere  
baby, you're not playing fair anymore  
You're my one and only care  
But my heart you have to spare  
Now all I do is sit and stare at the floor

And I wanna know

Where would you go when I'm not there  
And what would you do about me and you, do you even care

All this time I've been without someone like you  
Now that you're here, I've got someone to run to  
Someone like you, Someone like you

When you're gone I have to miss  
Your soft touch and your kiss  
Now my heart is spilling bliss cause of you

And if I had only one wish  
To say goodbye and to dismiss  
The old me Mr. Pessimist for you

But we're only friends  
Comes up now and then, before I protest  
And I'll keep lovin you  
Girl I promise you, I'll do my best
