

You'll Ask For Me

Tyler Hilton

What was that about the ballroom dancing class I asked about
It's all I thought about cause you were saying
We might get a chance to talk and talk might lead to dancing
Maybe dance might turn to dates and dates to aging

Hope you let your intuition
Precede my reputation
Cause I have one

I am what you see
I am not what they say
But if I turned out to be
Could you love me anyway
I'm standing anonymous
hoping your heart
Will just wake up and ask for me by name
Maybe someday you'll ask for me by name
Ooh not today

Well if this is love then it's hard to say
But the notes in your books and your reaching away
I've Confidence issues with your intentions
And I'm not hip to all of your tricks
But your algebra and your politics
And the band has planned a hotel intervention

So don't you leave me by my lonesome
To exceed my reputation
Cause i have one

I am what you see
I am not what they say
But if I turned out to be
Could you love me anyway
Standing anonymous
Hoping your heart
Will just wake up to ask for me by name
Maybe someday you'll ask for me by name
Ooh not today

I'm always here
I've walked you home
and settled for my own
Til again I'm needed

Cause I am what you see
I am not what they say
But if I turned out to be
Could you love me anyway
Standing anonymous
Hoping your heart
We'll just wake up and ask for me by name
Maybe someday you'll ask for me by name
No not today

Not today
Not today yeah ohoho ohoho
