

No Comedown

Tyler James

Loving you is like a blur
It's so perfect that it hurts
I slumber in a dream and
I don't even wanna stop

I'm falling she's waiting
We test anticipation
I'll hold you forever
Nothing feels better,
Nothing feels better

No comedown, no comedown
Whenever you're around
No comedown, no comedown
With this love that we found
We've given up this fight together
So let's just both surrender
We barely touch the ground
No comedown, no comedown
No comedown,

We lie here in the dark
I can feel your beating heart
I picture every moment
In my head before we start

I'm falling she's waiting
We test anticipation
Let's hold on forever
Nothing feels better,
Nothing feels better

No comedown, no comedown
Whenever you're around
No comedown, no comedown
With this love that we found
We've given up this fight together
So let's just both surrender
We barely touch the ground
No comedown, no comedown
No comedown,

The lower we go the higher we surf
Never felt this open before
Follow your breath
Feel your every sound

No comedown, no comedown
Whenever you're around
No comedown, no comedown
With this love that we found
We've given up this fight together
So let's just both surrender
We barely touch the ground
No comedown, no comedown
No comedown,
