

Where Did We Go

Tyler Joseph

Making sweet music
What?

We are people blind
Once again
We think we have the lights
We pretend we live
Such perfect lives
But we know
We don't have no love divine (yeah)

We'll try
To fly
Without
The wings of mine
We'll die
Fragile lives again
We won't proceed in this life
If we don't see what we need
Won't succeed please tell me
Where did we go
Where did we go

It is so hard
To live this far
What did we do to you
Yeah

We'll try again some day
Because we love you
We won't forget that day
When love was true Yeah
We won't proceed in this life
If we don't see what we need
Won't succeed please tell me
Where did we go
Why why there is a phone on the background?
You where flat man, flat man that was not flat
I thought you said this was going to be a good song
Where did we go (someone get that)
I thought you said this was going to be a good song cmon seriously
He did say that
