

A brave man said,  
"You put a name to a song  
And it won't change no matter what goes wrong."  
I'll try to be my best to find a face and a name  
I'll sing until we are both one in the same  
Didn't have much time to figure out why I was found  
Had to say goodbye  
As time ran out  
Sail across the world  
Just to find a pearl  
On the other side  
Hope the pearl won't forget this song  
And won't forget the sky

I don't know what I should give,  
Or what I should sing  
All I can do is give you this  
Let my heart play  
Let this song whisper your name

A song is not much time to show  
How beautiful you are  
But I will sing a song to your heart  
I don't know what I should give,  
Or what I'm to sing  
All I can do is give you this  
Let my heart play  
I know your face  
Let this song whisper your name

A song is not much time to show  
How beautiful you are  
But I will sing a song to your heart  
I don't know what I should give  
Or what I'm to sing  
All I can do is give you this  
Let my heart play  
I know your face  
Let this song whisper your name

I don't know what I should give  
Or what I'm to sing  
All I can do is give you this  
Let my heart play  
I know your face  
Let this song whisper your name

I don't know what I should give  
Or what I'm to sing  
All I can do is give you this  
Let my heart play  
I know your face  
Let this song whisper your name
