

## Back to LA

Tyler Ward

Was it something I said or something I did to you  
Was I out of my head or was there just someone new

You hear them say, "You'll never know until  
She's gone away"  
Today it's my turn  
Now I know the heart can break in two

All I'll send is a simple text that says  
I miss you and the way we kiss  
I can't get your taste up off my lips  
So come back to LA  
I know that I won't forget you quick  
Hope I'm the one you always miss  
If you can't get my taste up off your lips  
Then come back to LA

We were dreaming in red this must be our big mistake  
Cause forever was said, not "Hello. Love. Heartbreak."

You hear them say, "You'll never know until  
She's gone away"  
Today it's my turn  
Now I know the heart can break in two

All I'll send is a simple text that says  
I miss you and the way we kiss  
I can't get your taste up off my lips  
So come back to LA  
I know that I won't forget you quick  
Hope I'm the one you always miss  
If you can't get my taste up off your lips  
Then come back to LA

We were dancing on the rooftop  
Underneath the rain drops  
Whispering baby don't you ever stop  
So come back to LA

All I'll send is a simple text that says  
I miss you and the way we kiss  
I can't get your taste up off my lips  
So come back to LA  
I know that I won't forget you quick  
Hope I'm the one you always miss  
If you can't get my taste up off your lips  
Then come back to LA

I found out you're harder to forget  
You're the one I always seem to miss  
If you come around when you're back in town  
Just say hello cause I've always been in love with you  
And I wasn't meant to miss you
