

Falling ft Alex G

Tyler Ward

And the conversation was right
underneath the shade of moonlight
you were standing there, with sun-touched hair
and a dress the color white

like an aeroplane I took flight
feel in love with you that first night
cause you danced with me
and I could see that there was more to life

I'm falling in love with you

Just before the strike of midnight
you said this could be the good life
then you said goodbye
hope that I get to see you soon

then I walked for several miles
couldn't rid me of my smile
cause you found me and I found you
in this lovely month of June

I'm falling in love with you

Will you catch me
because lately
you're a dream come true

Say you love me
you are lovely
do you feel it too?

I'm falling in love with you
