

# Slo Mo

Tyler Ward

Stop. Pause. Take a minute  
Let this bring you back to a place that you remember  
We were young, cool, naive  
Hair was blowing backwards the California breeze  
I was smiling back at you as you were looking back at me  
Driving Santa Monica your hand upon my knee  
And I was kissing you  
Wasn't missing you  
Do you remember too

I remember talking in the dark  
Until we saw the sunlight  
Girl we had a spark  
We let go  
Underneath the stars  
Drinking up the moon light  
Taking our time  
Living in slow motion, slow motion

Didn't learn the lessons that they taught us back in school  
Fell in love with taking chances so we broke all of the rules  
And I never knew the meaning of, "I've got something to lose"  
Till I lost you, I lost you

So come on baby  
Let's take a slow ride to living a good life  
Don't say maybe  
We'll take our time

Talking in the dark  
Until we see the sunlight  
Girl we have a spark  
So let's go  
Underneath the stars  
Drinking up the moonlight  
Taking our time  
Living in slow motion, slow motion

I still think about you and all our memories  
Late night dancing to that Marvin Gaye  
First time, back seat, Chevrolet  
So can we live it, can we live it again  
So pack your bags for a getaway  
We take a trip back to our hideaway  
Keep it old fashioned on the modern day  
So can we live it in slow motion

Talking in the dark  
Until we see the sunlight  
Girl we have a spark  
So let's go  
Underneath the stars  
Drinking up the moonlight  
Taking our time  
Living in slow motion, slow motion
