That Kind Of Love

You watching me, In secrecy From the corner of my eye, I catch you walking by.

Can you agree, That we could be, More than just a quick hello, If we don't jump, we'll never know

That kind of love's easy, The kind you never knew That kind of love's easy The kind that you never get used to.

I know your sacred They never cared, And your past was push and shove, It's time to find real love.

So don't be shy, Your like paradise And it's my highest guarantee That you finally get to see Sing it again say, That kind of love's easy The kind that you never knew That kind of love's easy The kind you never get used to...

That kind of love's easy That kind of love's easy That kind of love's easy That kind of love's easy

Yeah, Yeah C'mon

That kind of love's easy The kind that you never knew (That we never knew, yeah) The kind of love's easy That kind you never get used to

Yeah (that kind of love's easy) Yeah (that kind of love's easy) Yeah (that kind of love's easy) Yeah (that kind of love's easy)
