

Hype Me

Tynisha Keli

Yeah baby
You ain't got to sell me a thing boy
Don't you know i'm already hooked on you
And you ain't got to flash me the stash boy
Don't you know I only want to look at you
So when you talking about your money
I'm not really listening
I can buy my own things
I know that you know things
But don't tell me
Just hold me
Mmm tightly
Nightly oh no

You ain't got to hype me
Hype me, Hype me
You ain't got to hype me
Hype me
I'm already excited baby
Hype me, Hype me, Hype me
You ain't got to hype me
I'm already excited baby
I see (yeah) you
I know you're staying on your hustle too
And I know that you like me (yeah)
But you ain't got to hype me
Your love is what's exciting me

Promise me the sun and the moon boy
All I really wanted was some time alone
You can roll up in your hoopty
Still you're gonna scoop me
It's your smile that's keepin me going
Wanna give you all this sunny
All this talk you're running is getting tired
Already got me wired
Wanna get me all inspired
Hold me
Whoa tightly
Oh nightly cause
You know that you

You ain't got to hype me
Hype me, Hype me
You ain't got to hype me
Hype me
I'm already excited baby
Hype me, Hype me, Hype me
You ain't got to hype me
I'm already excited baby
I see (yeah) you
I know you're staying on your hustle too
And I know that you like me (yeah)
But you ain't got to hype me
Your love is what's exciting me

Say u wanna take me to Rome

Maybe we could just stay home
You and me all alone
Wearin nothin but cologne
oh
That's all I really want

You ain't got to hype me
Hype me, Hype me
You ain't got to hype me
Hype me
I'm already excited baby
Hype me, Hype me, Hype me
You ain't got to hype me
I'm already excited baby
I see (yeah) you
I know you're staying on your hustle too
And I know that you like me (yeah)
But you ain't got to hype me
Your love is what's exciting me

You ain't got to hype me
Hype me, Hype me
You ain't got to hype me
Hype me
I'm already excited baby
Hype me, Hype me, Hype me
You ain't got to hype me
I'm already excited baby
I see (yeah) you
I know you're staying on your hustle too
And I know that you like me (yeah)
But you ain't got to hype me
Your love is what's exciting me
