

I'm Gone

Tynisha Keli

got hooked at age 15
now i cant live without it
u dont kno how much i dream
now i cant sleep about it
searching this matrix
sometimes it hurts to love it
at times i love to hate it
i kno that u think im buggin

im not sure how it feels to hav the
whole world running up on ur heels
its gest so lonely up at the top
but im not complaining
even if i wanted to i cud never stop
cuz

im gone
im higher than u ever seen
im gone further then u cud ever dream
wen its said && done
i finished second to none
theres only room for one
wish i could catch myself cuz im
im gone
its like i left the stratosphere
im gone
no point in looking for me here
wen its said && done
i finished second to none
theres only room for one
wish i cud catch myself
cuz im gone

cuz luxury is my everyday reality
but its not all that it seems
thats just not wats driving me
see its this music i bleed
these lyrics i breathe
&& the melody is such a part of me

im not sure how it feels to hav the
whole world running up on ur heels
its gest so lonely up at the top
but im not complaining
even if i wanted to i cud never stop
cuz

im gone
im higher than u ever seen
im gone further then u cud ever dream
wen its said && done
i finished second to none
theres only room for one
wish i could catch myself cuz im
im gone
its like i left the stratosphere
im gone

theres only room for one
wish i cud catch myself
cuz im gone
