

## Next Time

Tynisha Keli

Oh, oh, oh, oh

There wont be a next time, no  
There wont be a next time, no

I dont want to hear it,  
'Cause I'm afraid of what I'll do  
I'll ignore the facts,  
Hide the truth,  
And go back to loving you  
I'm trying to explain it,  
Im trying to see this side of you,  
I love you, it's messed up,  
'Cause it's so hard to look away from you

Feels so good, well I know it's right  
Should've been gone,  
But I thought us was worth the fight  
Did you think of me, while doing you?  
The damage is done, you can fix it this time oh

No more Mr.fix it f-f-fix it up  
You can't come back around  
And try to clean it up  
I gave you chance after chance  
And that was more than enough  
Said you'd do better next time,  
But there wont be a next time oh

There wont be a next time,  
No more next time no  
No more next time,  
No more next time no

I fall for you, when I see your face  
'Cause you're my regress  
Besides if I forget  
All the wrong we've done  
Oh, I come undone  
All your chances split and you won't get another one

Feels so good, well I know it's right  
Should've been gone,  
But I thought us was worth the fight  
Did you think of me, while doing you?  
The damage is done, you can fix it this time oh

No more Mr.fix it f-f-fix it up  
You can't come back around  
And try to clean it up  
I gave you chance after chance  
And that was more than enough  
Said you'd do better next time,  
But there wont be a next time oh

There wont be a next time,  
No more next time no

No more next time  
No more next time

It wont happen like you know  
You're breaking my heart  
You can't come fix it anytime, no, no ohh  
There wont be a next time

(No more Mr. Fix it)No more Mr.fix it f-f-fix it up(oh)  
You can't come back around(come back around)  
And try to clean it up  
I gave you chance after chance  
And that was more than enough(enough)  
Said you'd do better next time,  
But there wont be a next time(be a next time no) oh

There wont be a next time,  
No more next time no  
No more next time  
No more next time
