

## Brother's Bane

Týr

Honour your brother's name, unarmed or blind  
Let me aid you in your aim, don't stay behind let's  
Maim immortality and death to a deity

There's no reason to defend, nothing can harm him  
Let's say it's just pretend, extend your arm and  
Bend now this fatal bow and mark with this mistletoe

Your brother's bane  
My greed and gain  
Your brother's bane  
My greed and gain

Grieving, my teeth I grind, I see it now  
You mischievous mastermind, for this I vow  
You'll pay in a paragon of sorrow, you made my son

Your brother's bane  
My greed and gain  
Your brother's bane  
My greed and gain

Somehow, by good or ill  
Some have their will  
And some care not if they kill  
Scorching their spirit  
So tales are torn apart and cold  
Conscience close their heart

Can't save them know  
Just kneel and bow  
Can't save them know  
All die somehow

Your brother's bane  
My greed and gain  
Your brother's bane  
My greed and gain

Your brother's bane  
My greed and gain  
Your brother's bane  
My greed and gain
